Frequently Asked Questions (FAQ)	Answers to common questions									
	Can IDs be shared? No! Why? Because the site is personalized for each user. Multiple users would "contaminate" as results, course completions, and other vital information.						would "contaminate" asse	essment		
	Can II is ne reassigned?			Yes! If a student terminates employment or fails to use what was purchased for them, the remaining term of the student ID can be reassigned to new user.						
	\\/\hat reports are available?			Students can access attendance reports and transcripts directly from the site. STC can also provide standard activity and usage reports to DTOs.						
	What is a "Platinum Level Purchase?"			When purchase level exceeds 150 users or \$7500.00 the end customer receives additional services. ETS will provide pre-sales support and implementation services directly to customer. Customer also receives a hosted Learning Management System to track and manage students, reports, and activity
